Response to Arguments

Applicant argues that the Restriction Requirement is improper because the inventions do not lack unity. The Examiner agrees and the Restriction Requirement is withdrawn.

Allowable Subject Matter

Claims 1-17 are allowed.

The following is an examiner's statement of reasons for allowance: The claims are allowable because the prior art does not teach or suggest an optical recording medium or method of manufacture where the substrate of the medium has a center hole diameter which is smaller on the side of the medium having a resin layer thereon.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
